

Under the right conditions, microbes on an untreated surface can double every 20 minutes... but, Not With Microban® !

Without Microban®

With Microban®

Microban® after 24 hrs

The most popular rooms in the house are also popular for microbes. Higher humidity levels and ample food sources make the bathroom a hotspot for the growth of bacteria, mold and mildew. In fact, on an unprotected surface, bacteria can double in number every 20 minutes!

What is the best way to fight bacteria, mold and mildew growth on your shower or bathtub? Practice good cleaning habits and make sure to choose Luxury Bath products. Our shower and bathtub liners are infused with built-in Microban® protection for an added level of protection between cleanings.

Luxury Bath is the only bathroom remodeling company in North America with exclusive rights to Microban® product protection. This protection is built-in to shower and bathtub liners to work around the clock, between cleanings, to fight the growth of stain and odor causing bacteria, mold and mildew.

Microban® technology is designed to provide an added level of cleanliness to keep your shower and bathtub cleaner for longer. Unlike surface disinfectants which temporarily eliminate bacteria, Microban® protection is infused right into Luxury Bath products so it will never wash off or wear away, protecting your shower or bathtub liner for its lifetime

With Microban® antimicrobial protection, you can be sure you're getting continuous, durable and effective protection that provides an added level of defense against stain and odor causing microbes for the lifetime of your shower or bathtub liner.
